SIGNED THE BILL.

President Arthur has signed the new Chinese bill, for which act he is entitled to the thanks of the Pacific Coast people. In the face of the sickly Eastern sentiment on this subject it was a brave thing for him to even approve the new bill, and he is deserving of great credit for his firm stand. He has shown that he is in sympathy with this people, and fully recognizes the great danger to the country from a continued influx of Chinese. Time will prove the wisdom of his action, and in after years we opine that he will recall it as one of the best of his Administration.

Railroad Construction in Texas.

Work on the Southern Pacific Railroad in Texas is being pushed forward rapidly. The gang working east from El Paso is only 91½ miles from the point near the Rio Grande now determined upon as the place of meeting of the two construction parties. This point is located 400 miles from the bridge across the Rio Grande near El Paso, and 240 miles from San Antonio. The country in the vicinity is mountainous, wild and rugged, and tunneling and bridging will soon be necessary.

Death of a Venerable Mason.

Ephraim Sherman Durfee died at Oshkosh, Wisconsin, Friday. He was the Worshipful Master of the Rochester Lodge of Masons in 1828, and conferred the degree on Morgan, who subsequently exposed Masonic secrets. Owing to the anti-Masonic excitement at the time Durfee was compelled to leave the country. He was a soldier in the war of 1812.

Captain Tod, of the Glamis Castle, told a Post reporter Thursday that there are between 80,000 and 90,000 Chinese at Hongkong awaiting an opportunity to come to this country, and vessels are being chartered at enormous rates to bring them. The fact that the Chinese do not arrive by the thousand every day is because there are not sufficient vessels to be had to bring them over. The interesting problem to be settled is "Where shall the whites emigrate to?"

Though as there is no official corroboration of the rumor, it is very generally believed that President Arthur has decided on the recall of Minister Lowell. His successor to the Court of St. James has not been fixed upon, but it is thought it will be some one more in harmony with the recent political changes of England on the Irish question than Lowell has shown himself to be.

Simultaneously with the announcement of the finding of DeLong comes the report that thirty of the thirty-seven persons on board the Rodgers were lost, and upon the heels of this the death of Admiral Rodgers, after whom was named the vessel sent out to find the Jeannette. Who can picture the horrors yet to come in the settlement of the northeast passage.

The fate of DeLong and his brave comrades is no longer a mystery, the State Department having received word from Melville that at the Lena delta on March 24th the intrepid explorer and ten companions were found dead. His papers and books were also found and the record of his entrance into the Valley will soon be known.

Ireland should stand by Gladstone. It is disgusting to read that he is being burned in effigy in Dublin. Gladstone's downfall now means a worse condition than ever for Ireland.

The destruction of Racine adds another city to the list devoured by flames. Considering the extent of the fire it is wonderful that only few lives were lost.

Pacific Coast people are praying for Worthington's confirmation as Collector of Boston. Then Hoar will know how it is himself.

Again a clue to the author of the Morey letter. It is very suspicious that murder will not out in this celebrated case.

Michael Davitt now heads the procession.

Rich Mineral Discovery in Wyoming.

LARAMIE CITY, May 4th.—A wonderful discovery of native copper and silver twelve miles southeast of this place, has just been made. It is directly across the old overland stage road. The ore runs from sixty to one hundred per cent. copper, with gold and silver in paying quantities. There is a stampede to the new discovery from all directions.

THE SILVER WAR.

The war against the coinage of silver still goes on in Congress, and the subcommittee of the Committee on Currency and Banking has reported to the House recommending the adoption of a bill to suspend the further coinage of silver, and also the issue of the silver certificates. The JOURNAL fully agrees with the Grass Valley Union when it says the representatives in Congress from all the mining States will have to keep their eyes and ears open or the time will soon come when the coinage of silver will almost entirely cease, and in such an event the discount on the silver produced in the mining States and Territories would be still greater than at present. It seems strange that Congress cannot let the silver question alone—let well enough alone—for as the financial question now stands it ought to, suit all. Gold, greenbacks, silver dollars and subsidiary silver coin are all on an equal footing, and that is just what the people of this country want, and what they should have. But the gold bugs are not satisfied, and still keep harping on the silver question, and are continually trying to get bills through Congress which have a tendency to debase silver and put a check upon one of the greatest industries of the Pacific Coast. The excuse of the Secretary is that the vaults of the Treasury are full of silver coin, and cannot be put into circulation. This is all nonsense, as it would have been a very easy matter for Mr. Sherman to have put all the silver coined during his term of office in circulation, if he had had any desire to do so, and it would be just as easy for his successor so to do if he had desired to, by paying even a small portion of the salaries due to Government employees and contractors. By so paying a portion of the Government debts in silver coin the vaults of the Treasury need never be crowded, and the "poor man's money" would continue to be the great circulating medium of the country, the mining interest would receive a hearty stimulus, the people would be more prosperous, and the financial basis of our Government would be perfectly sound. We say that a free coinage of silver would be better for the whole country than to put the least restriction upon the coinage of the "dollar of our daddies."

PROSCRIBE THE CHINESE!

Pertinent Address from the League of Deliverance to the People of the Pacific Coast.

The Executive Committee of the Pacific Coast League of Deliverance has issued the following address:

To the People of the Pacific Coast—Fellow citizens: The time for active, aggressive work has arrived in repelling the silent but active and overwhelming invasion of this country by Chinese. To remain longer inactive will subject us to an evil which only a resort to violent measures can wholly extirpate. To avoid such a calamity is the duty of every patriotic citizen. Congressional action under present treaty stipulations with the Chinese Government will not relieve us. To accept such action would be a criminal compromise with an evil whose force and magnitude are as appalling as its continuance will be destructive to our own interests and those of our prosperity. In this struggle

SACRIFICES MUST BE MADE
By all who sincerely desire the maintenance and advancement of our civilization. Unless we are prepared to make sacrifices there is no use proceeding further. Now is the moment in which to proceed, or by remaining inactive to invite an increase of this evil till it culminates in devastation and human slaughter. Arguments are not needed to convince you of the evils under which we labor. They surround you on hands. Nor are they necessary to point out to you the results of neglected opportunities. Neither the bill pending nor that which was denied the Presidential signature meets the requirement of the people of this coast. Even absolute prohibition is not enough to destroy this wrong.

PROHIBITION AND EXPULSION
Are the true remedies. Prohibition will follow expulsion, as expulsion must follow personal sacrifices and a determined system of non-intercourse and business and social ostracism. Are the people of this coast prepared to unflinchingly participate in a crusade upon this basis? If so, become members of the League of Deliverance, which has been organized only for this purpose. We invite the formation of branch Leagues.

First—By organized effort, to crush out each employment in detail.

Second—To substitute white or other labor in such employment for Chinese.

Third—To insist upon the enforcement of every local and state law discouraging the immigration of Chinese here and their residence among us, as well as the enactment of others for a like purpose.

Fourth—To rid the country of Chinese under all circumstances.

To strengthen the Executive Committee in the accomplishment of this work, all persons are invited to take the pledge and receive a card of membership at the headquarters of the League of Deliverance, 843 Market street (old St. Ignatius Building, Rooms 6 and 7). On behalf of Executive Committee for the Pacific Coast.

F. RONEY, Chairman.

W. H. EASTMAN, Secretary.

The Tuscarora Times-Review says: Ex-Indian Agent John How was arrested here last Monday evening at the instance of John Denning, charged with the crime of forgery. The examination was continued until Saturday.

WOMEN IN A BAR-ROOM.

The Reception Which Edward S. Stokes Gave at His Palatial Saloon.

New York, April 27.—There was a remarkable reception in the Stokes bar-room this afternoon. The proprietor, Edward S. Stokes, better known as the "man who shot Jim Fisk," issued 2,000 invitations to ladies to visit the bar-room between 9 A. M. and 1 P. M., and nearly 1,000 women, with a sprinkling of fashionably-dressed men, were present. The room, which is very large, was artistically lighted, and the air perfumed by silver cologne fountains and a profusion of flowers. Behind an immense mass of ferns and palms was an orchestra playing Strauss' waltzes softly, to an accompaniment of an occasional clink of glasses on the bar and the hum of hundreds of whispered voices as the guests moved about the room. Early comers exhibited some timidity, but it was overcome after they had passed through the decorated corridors into the gorgeous bar-room.

At rare intervals an actress or a public advocate of woman's suffrage was to be seen. Several bankers and a number of the men who are seen on Broadway in the afternoon lounged about, dressed with great care and exhibiting much gravity of demeanor. Once when the plush doors swung back and a man sauntered coolly in there was a ripple of excitement and craning of necks. He was dressed with elaborate care in the height of fashion. His close-cropped hair was quite gray, but his face bore no trace of trouble, and he seemed to be in excellent spirits. When he stopped for a moment to chat with a quietly-dressed actress from Wallack's there was a noticeable crush among the women about him for a glance at his face. He went on presently and the women parted reluctantly to allow him to pass. He went out into the corridor and the doors slammed after him. It was Edward S. Stokes.

Raising Fish.

(Downsville Messenger.)

From Dr. Webber, who was in town this week to attend to his suit with Mrs. A. J. Anderson in regard to the personal property of the Webber Lake hotel, we learn that he has quite a fish establishment at his ranch near Loyaltown. In all he has five ponds, two of which contain trout, two catfish, and one is devoted to carp. The largest pond is circular and one hundred feet in diameter; the next is thirty by one hundred feet, while the other three are smaller. In his trout ponds he has fish varying in size from an inch to two feet in length. The fish have to be regularly fed, the trout mostly on meat, but the carp will eat anything almost. These ponds are about four feet deep in the center. The larger ones are walled in with substantial rock walls. In the center of the circular pond the doctor will erect a summer house. The doctor proposes to increase the number of his pond this season, and will stock some of them with whitefish from the Truckee river. So far, his fish have not bred in confinement, but he thinks they will do so this year. Sierra Valley is full of suitable places to erect fish ponds, but so far as we know, the doctor is the only person there who has made a beginning in this direction. In a few years at least, the doctor will have more carp than he will know what to do with, as when they commence they increase very rapidly and require but comparatively little attention. The catfish will also breed well, but whether he will succeed in raising trout with the facilities available, we do not know, nor does it matter as he can obtain all the young fish that he wants at a trifling expense.

(Eureka Leader, May 4th.)

Lieutenant Governor Adams arrived last night and has been hobnobbing with personal and political friends today. He leaves in the morning to look after his agricultural interests in Nye county, and to see if any fences need repairing in that locality. He thinks they are in good condition hereabouts.

Salidier informed Gov. Adams to-day that he was selling his coal teams in order to meet the necessary expenses in securing the nomination for Governor, and Adams announced his determination to dispose of his cattle to offset it.

The future home of the blessed has little charm for gas and electric light companies. There is no night there.

THE BEAUTIFUL MONTH OF MARY.

(From the S. F. Monitor.)

Every instructed Catholic knows that the month of May is specially allotted by the Church to devotion to the Blessed Mother of God. This beautiful devotion—in which every Catholic should participate—owes its origin to the zeal and piety of an Italian priest—Father Salvoni—who procured the sanction of the Church for this month of prayer through an Apostolic Brief from Pope Pius VII., in 1815. By this Brief the faithful, who comply with the usual requirements of the Church, are granted three hundred days' indulgence for each day of the month of May upon which they perform any prayers, devotions, or acts of virtue in honor of the Blessed Virgin; also a plenary indulgence, which may be gained any day during the month, upon the usual conditions. Here is a spiritual incentive to excite the devotion of Catholics towards the Mother of God and to gain those graces which all of us stand so much in need of. The whole Christian world, at this season, gathers round the sweet shrine of Mary; the flowers which God's goodness provides, are placed upon her altars, and the glory of God is magnified by the prayers which ascend to His heavenly throne in honor of His Blessed Mother.

Scattered throughout the Pacific coast there are hundreds of Catholic homes remote from churches, but wherein will be erected, during this month, a floral shrine of devotion to Mary the Immaculate, and around which, as the shades of evening begin to fall, will be gathered the family group to recite the beautiful devotion peculiar to the month of May. Happy homes are those where two or three are gathered together in the name of God; and where—as He Himself assures us—He is in the midst of them. What a charming and consoling sight to see the parents and the children blend their petitions to heaven with those of the saints, and thus become the means of drawing down upon the humble household the richest graces in the treasury of heaven!

Not a single "Hail Mary" said in honor of the Queen of Heaven, with proper disposition, has ever been lost; not a single act of devotion, in imitation of the virtues of Mary, has ever been unfruitful; not a single petition which the pleading penitent heart presents to God, through His "Reign of Sinners," has ever been offered in vain! How sweetly consoling to the Catholic heart are these reflections, and with what ardor and constancy should we not cling to the "Mystical Rose" of the Most High!

Let every Catholic, then, during Mary's month, visit daily the churches decorated in her honor and perfumed with the fragrance of her virtues. Let every Catholic home have its domestic shrine around which the family will wind their prayers in the garland of the Rosary. But, above all, let all Catholics erect in their hearts a shrine to Mary, the Mother of God, and let it be decorated with the spiritual virtues which gained for the Blessed Virgin the highest throne among the heavenly choirs. She was pious and pure, so let our hearts be as immaculate as the lily which reflects her spotless state. Mary was obedient and humble, so let us be like the retiring violet which suffuses the air with its fragrance but conceals itself beneath the leaves that surround it. In a word, let our hearts be a bouquet of the virtues of the Blessed Virgin, represented by the devotion which we show to her by our purity, and our piety, our constancy and our charity, our obedience and our humility, and thus we will honor God through her whom He honored, and we will share the bliss He shared with Mary Immaculate, the beautiful Queen of May.

AN ENTHUSIASTIC GENTLE.—A Comstocker now in Salt Lake City writes that a great number of new buildings are going up in that place. He says: More new buildings will be erected this year than in any other year since the settlement of the place by whites. The mines are proving rich and permanent, and new mineral deposits are being constantly discovered. We shall presently clean out polygamy, run Utah under gentle rule and take their big Mormon temple for a mint in which to coin the precious metals dug out of the mountains.

The mill is reducing but 90 tons a day, so that if the present rate of yield is continued there will soon be a surplus of ore on hand, which will necessitate the employment of another mill.

Suicide

J. B. Brogan committed suicide at Prosser Creek, near Truckee, yesterday afternoon. He was discovered lying on his bed with two bullet wounds in the temple. We do not know where the other Mrs. Finnon, resides.

APPOINTED INDIAN AGENT

A Resident of the State in Charge of a Reservation.

The JOURNAL copied a two-line notice from the Eureka Leader that John S. Mayhugh had been appointed Agent for the Western Shoshones, but we have not seen anything of the kind telegraphed. However, we clip the subjoined from the Silver State:

John S. Mayhugh has been appointed Agent of the Western Shoshones, at Duck Valley Reservation. This is a new departure on the part of the Administration. Heretofore the custom has been to appoint Eastern men, who never saw an Indian outside of a circus side-show, Indian Agents in the West. Mr. Mayhugh is an old resident of the State, having represented Esmeralda county and subsequently Elko county in the Legislature, and afterwards acted as Register of the United States Land Office at that place until it was removed to Eureka. For exhibiting a little independence in the Legislature of 1889, he was read out of the Republican party by the Enterprise, but Daggett's excommunication amounted to nothing, as Mayhugh, Cleveland and others against whom the bill was issued, did not stay out. Teller, the new Secretary of the Interior, is a Colorado man, and knows something by experience about Indians, and doubtless Mayhugh's appointment is partly due to that fact and the recommendation of Senator Jones.

Drowned.

The little daughter of O. Ayers, the layman, about four years of age, fell into the Lake ditch yesterday morning, about 11 o'clock, and was drowned. It must have fallen in at the residence of Mr. Ayers, on First street, near the Methodist church, and was carried down with the current to the Silver Star Mill, nearly a quarter of a mile below, before the body was recovered from the water by Sheriff Walker, just as it passed out through the west gate. Dr. Dawson was immediately called and every effort was made to resuscitate it, but without avail. Life was probably extinct for some time before the body was discovered. The child must have been in the water 15 or 20 minutes, and possibly longer.

Races at Greenville.

There will be three days racing over the Greenville Race Course, on the 3d, 4th and 5th of July. All the gate money, entrance fees, pool selling privileges and the citizens' fund of not less than \$150, will be given in purses to be contested for. A full programme will appear in the next issue of the Bulletin.

Keeping the In-sure at Home.

The Carson Tribune of last evening contains the annexed.

John S. Miller, who was referred to in yesterday's Tribune as having been pronounced insane and committed to Stockton, is still in Carson and will remain here until the pleasure of the Board of Commissioners shall be made known concerning the propriety of sending patients to stockton at a heavy expense when by law all these at Clark's Asylum have to be removed to Reno in less than sixty days. All will recognize the propriety of retaining new patients in the State whenever such action is practicable, and it is to be hoped that in the case referred to, the insanity being of an unusually mild character, the patient may be provided for by other means than forwarding him to the present receptacle for such unfortunate.

A Big Contract.

The Eureka Sentinel of yesterday morning has this:
Jas Mayberry, recently employed here on the E. & C. R. R., and A. A. Smith, of Reno, have a contract to get out 140,000 ties for the Northern Pacific Railroad. Mr. Smith arrived here from Butte Friday night, on his way to White River, where he has some money that he will have started for Idaho at once. He is an irrepressible "quaster," and has been one of the heaviest dealers in wood and timber in Western Nevada. There being no more room now for such enterprises in that quarter, he has sought a new field.

of a series of com-
plaints which are

out the lurking humors in the system, that un-
dermine health and settle into troublesome dis-
orders. Eruptions on the skin are the appear-
ance on the surface of humors that should be ex-
pelled from the blood. Internal derangements
are the determination of these same humors to
some internal organ or organs, whose action
they derange, and whose substance they disease
and destroy. AYER'S SARSAPARILLA expels these
humors from the blood. When they are gone
the disorders they produce disappear, such as

MIDDLE-AGED MEN.
There are many at the age of thirty to sixty,
who are troubled with too frequent evacuations
of the bladder, often accompanied by a slight
smarting or burning sensation, and a weaken-
ing of the system in a manner the patient can-
not account for. On examining the urinary
deposits aropy sediment will often be found,
and sometimes small particles of albumen will
appear, the color will be a thin milky hue,
again changing to a dark and torpid appear-
ance. There are many men who die of this
difficulty, ignorant of the cause, which is the
second stage of seminal weakness. Dr. S. will
guarantee a perfect cure in all such cases, and
a healthy restoration to the genito-urinary or-
gans.
